Customer questions & answers

Q. Have a question? Search for answers

1 vote

Question: What is the range on full battery
Answer: A recent trip was 2.2 miles total on asphalt with 1 very steep hill, and two medium hills. The rider was a child that weighs about 65 pounds. This used about 50% of the battery life. In Roughly 1/2 hours use.
By Ivan Giddings on January 22, 2021

Question: how much does it weigh ?
Answer: Hell friends, the hoverboard is 20lb, and it can hold 44-220lb, thanks!
By Fengchi-US SELLER on February 9, 2021

0 votes

Question: How long does the battery last?
Answer: Hello friends, the battery is 4.0Ah / 36V 144WH 20 cell strong battery, it can last about 1-3 hours, and it is depend on the rider's weight and road surface conditions, thanks!
By Fengchi-US SELLER on December 11, 2020

0 votes

Question: What is the maximum speed the hoverboard can go?
Answer: It's fast my teenage daughter has yet to get it maxed on speed guessing 10 to possibly 15 mph on flat gnd

★★★★★ Are you still looking for a hover board? you can stop now!

Reviewed in the United States on December 15, 2020

Color: Solid tire-blue | [Verified Purchase](#)

OK I don't know where to start but before I was buying hoverboards on the Amazon and those Hoverboards have been working the most for couple months before they break. I even told my kids I'm not buying hoverboards anymore! Because it's a waste of money, they just keep breaking!

Until I bought GYROOR hoverboard! I bought one for my son and he loved it! So my second son asked me to buy one for him too. So it has been six months since we own GYROOR hoverboards and did not have any problem! So now my third son wants one too :) so I

bought this hoverboard and can't be more happier with this purchase!

Andrey S.

★★★★★ Very unhappy with this hoverboard.

Reviewed in the United States on March 12, 2021

Color: Solid tire-blue **Verified Purchase**

I bought this hoverboard for my 2 kids.

It arrived fairly quickly and the packaging was OK.

The first problem: one side of the power supply cord was missing (power outlet plug to power transformer). I felt like returning it right then, but the kids really wanted to try it out so I had to create a makeshift connector using an old laptop power cable to charge the battery up. It took about 3 hours until it was fully charged. I emailed the seller and they sent me an entire power supply in about a week. This unit worked OK for about 2 weeks and then, suddenly, it stopped balancing, meaning the left side was tilted forward at all times while the right side was level to the ground. It was still possible to ride it, but it just wasn't right. I tried re-setting it using the manual provided to no avail. At that point I decided to return it.

Couple more notes that are not critical, but should be a good FYI for those who consider investing in this thing:

- The smart phone app is a complete joke. You rarely see a 2.2 star reviews on Google play store, but trust

Diamond Cat

★★★★★ Very solid and seems well built

Reviewed in the United States on January 29, 2021

Color: Solid tire-black **Verified Purchase**

I did a lot of research trying to find a hoverboard for my kids for Christmas 2020 and I ended up getting this one. I wanted something that they would be able to take on the grass and would be durable. They have yet to take it outside (it is winter here) but have been riding it around the house a lot. It is pretty heavy and feels very solid and well built. It can go very fast but the kids (mine are 10 years old) handle this thing crazy well. It took zero time for them to become experts on it. So much so that they make it look easy...too easy. Warning for parents, no matter how easy they make this thing look DO NOT try it. I think it has a secret "fling parents off" option, both my husband and I went from vertical to horizontal in literally a split second. If you do decide to take your life into your own hands, make sure you are in a large area with nothing you can hit on your way down. You've been warned.)

There is an app that you can download that lets you set a max speed, adult vs children mode, and turn on/off self balancing mode. It also lets you change the light colors. You can connect your phone to the board via bluetooth and you can play music through the wheel speakers. It is fun to surprise your kids with silly music, or funny sounds, when they are riding on it. One issue I have though is that if I have my phone (Android) bluetooth on and I come home, it automatically connects to the hoverboard. I just mention this
